

INDEPENDENT ARTIST CLIENT PACK

2026 EDITION

Helping Filmmakers Bring Their Stories to Life

- **Basic Short Film Edit**
 - Professional story assembly from raw footage, ensuring logical flow and pacing
 - Clean cuts and scene transitions for clarity and readability
 - Basic audio syncing and balancing for dialogue and ambient sound
 - Simple noise reduction to improve overall sound quality
 - Basic colour correction to unify footage and maintain consistency
 - Export optimised for digital delivery (1080p standard, web-friendly formats)
 - Captions or simple text overlays if provided
 - Basic trimming and sequencing to emphasise story beats
 - Review of footage to highlight best takes

- **Standard Short Film Edit (Includes all Basic skills, plus)**
 - Creative colour grading to enhance mood, tone, and cinematic feel
 - Advanced audio enhancement: dialogue clarity and ambient sound
 - Smooth and professional transitions between scenes
 - Minor visual effects (speed adjustments, light emphasis effects, emphasis zooms)
 - Storytelling refinement: pacing, timing, and emotional emphasis
 - Motion text and titles for scene headers or credits
 - Incorporation of viewer engagement techniques for festival or online screenings
 - Music/Soundtrack integration

- **Cinematic Short Film Edit (Premium) (Includes all Standard skills, plus)**
 - Full cinematic colour grading and LUT application to achieve film-quality visuals
 - Advanced layered audio mixing, sound design, and multi-track integration
 - Advanced pacing, rhythm, and scene emphasis to enhance storytelling impact
 - Priority handling and faster turnaround for festival or client deadlines
 - Export-ready in multiple resolutions and aspect ratios for festival submission or streaming
 - Detailed revision workflow with client collaboration for story and emotional impact
 - Creative problem-solving for challenging footage (lighting mismatches, incomplete coverage, continuity issues)

- **Green Screen & VFX Integration (Add-On)**
 - Seamless chroma keying with clean edge refinement
 - Background replacement and integration with your story environment
 - Colour and lighting matching for realism and cinematic cohesion
 - Integration across Basic, Standard, or Premium packages

Video Editing

Precision & Storytelling

I specialize in cinematic editing that enhances mood, pacing, and visual storytelling. Whether it's a short film or a feature-length project, our editing process ensures your movie looks polished and professional. For filmmakers, musicians, and storytellers, making a name.
